Change text for Mfangano. Packing a picnic lunch, heading southwards across Rhino Ridge and down past Paradise plains the rutted tracks lead you to Nkorombo our mobile site nestled in an olive grove on the banks of the Mara River. "I really felt the power of nature, the authenticity of your offer, the internal peace, a stay at your mobile camp can generate within an urban, always stressed executive. I felt absolutely pampered, not only by the friendliness of African people, but also by the barefoot feel of your camp and by feeling part of nature ..."

Karina Ajmar, SPAIN

DAY 8 • 9

You wake up feeling part of a nature documentary with lions, zebras and buffalos. Everything about this reserve is outstanding. The wildlife is abundant and the gentle rolling grasslands ensure that animals are never out of sight. Birds, too, are prolific. Including migrants, well over 450 species have been recorded, among them, 57 species of birds of prey. The climate is gentle, rarely too hot and well-spread rainfall year round. Rain, when it falls almost always chooses the late afternoon or night.
