in a cocoon of a room floating
on a cloud of bliss. Thank you
for a sanctuary – exactly the

DAY 2 • 3 • 4

An early morning start in your own 4WD safari vehicle, key to the Serian experience is the exclusive use of vehicle, freedom to plan to your pace and immerse yourself in this enormous wilderness. Conquering the imagination, leaving you feeling overwhelmed, excited, chaotic & confused. Yet it nurtures a livid energy, offering refuge to some of the most significant & immense wildlife on earth.

NIGHTS AT SERIAN

"It really is quite an amazing and different world out there, and hard to think that it's only just over a week ago that I could look in all directions and see nothing but grass, trees and animals for miles and miles..."

Paul Hicks, HONG KONG

Packing a picnic lunch, heading southwards across Rhino Ridge and down past Paradise plains the rutted tracks lead you to Nkorombo our mobile site nestled in an olive grove on the banks of the Mara River. Having trekked through the vastness of the Mara, you will appreciate a welcome break upon reaching camp. A cold beer whilst sat around the campfire, stirring conversation, dissecting the day and reflections on the consummate bush knowledge of the Masai guides.

DAY 7 • 8

You wake up feeling part of a nature documentary with lions, zebras and buffalos. Everything about this reserve is outstanding. The wildlife is abundant and the gentle rolling grasslands ensure that animals are never out of sight. Birds, too, are prolific. Including migrants, well over 450 species have been recorded, among them, 57 species of birds of prey. The climate is gentle, rarely too hot and well-spread rainfall year round. Rain, when it falls almost always chooses the late afternoon or night.

NIGHTS AT NKOROMBO MOBILE CAMP

"I really felt the power of nature, the authenticity of your offer, the internal peace, a stay at your mobile camp can generate within an urban, always stressed executive. I felt absolutely pampered, not only by the friendliness of African people, but also by the barefoot feel of your camp and by feeling part of nature ..."

DAY 11 • 12

We have an exclusive use conservation area of 250,000 acres with access to over 1,500,000 more; this is a classic walking area. Game trails weave their way around this area and traditional migratory routes are well trodden at this time of year. A significant area is only accessible by foot and this is how safaris are conducted here. You will immediately notice the difference between a vehicle tour and one conducted on foot. Your perception of the bush will change until you feel an intimate relationship with the environment itself.

NIGHTS IN SERENGETI NORTH

"An oasis of calm in a fairy-tale setting. A fantastic recharge of batteries and a reminder of why Africa is so special"

Tom & Faith Martin
